

Chapter 5

Remote Access Configuration

Activity Known Issues

Lab	Issues
5-3	<p>p. 181, Step 4: The step says to log on to the domain as Administrator but the DC is offline, so just logon to the local computer as Win8User.</p> <p>p. 182, Step 8: The address that will be assigned is 10.11.0.101 since 10.11.0.100 is assigned to the PPP adapter on 411Server2.</p> <p>(Hat tip: Mario Covelski for these two notes)</p>
